### SENIOR OPERATIONS MANAGER | Company XYZ

DECEMBER 2016 – AUGUST 2018

Responsible for the overall operations of the Thailand factory, ensuring successful execution of all key elements of the factory supply chain – Incoming Quality, Planning, Production, Engineering & Outgoing Quality, for both New Product Development and High Volume Manufacturing. Primary customer contact for Thailand operations – managing all key customer interactions to ensure a high level of customer satisfaction.

- Successfully ramped multiple new products, with peak output exceeding 500K/day – meeting all schedule and quality requirements of a major global customer
- Provided strong and effective leadership by setting clear & challenging expectations, developed solid business processes and fostered greater attention to detail and quality

### SUMMARY

Operations & supply chain professional with over 20 years of experience in procurement, supplier management and factory operations in the Asia region. Veteran of multiple green field projects and start-ups in Malaysia, China & Vietnam. Excellent management skills with the ability to grasp the bigger picture and effectively drive detailed problem solving and project management. Extremely flexible and thrives in ambiguous and diverse environments.

### SENIOR COMMODITY MANAGER | Company XYZ

JULY 2015 – DECEMBER 2016

Accountable for Capital Equipment spending strategies to achieve lowest Total Cost. Provide leadership to equipment selection teams and maintain executive level relationship with key suppliers to ensure exceptional operations and new technology development support.

- Delivered over \$5M in cost savings through various sourcing strategies and negotiations
- Enabled the successful ramp of key new products by ensuring timely supply of equipment, man power and collaterals
